Warren, Michigan 48093

TO: Industry Test Sponsors and Laboratories  
FROM: Kimberly Bennett  
SUBJECT: Test Uploads to Support DEXRON® licensing and DEXRONESubmission Implementation

Effective June 1, 2020, the GM Test Data Center (GMTDC) will serve as GM's storage location for all DEXRON test data. To achieve that goal, GM is requesting that all test data used to support DEXRON requirements, whether generated using GM or industry test methods, be uploaded to the GMTDC.

Instructions for uploading DEXRON test data can be found in the DEXRON® Test Upload Manual, which is available for download on the GMTDC website. (<https://gmtdc.org/ftp/docs/DexronTestUploadManual.pdf>) The current version of the DEXRON® Test Upload Manual is dated May 27, 2020, and should be used for all DEXRON test data uploads to the GMTDC.

Effective July 1, 2020, the DEXRONESubmission system will be available to submit DEXRON license applications for *New Chemistry, Existing Chemistry – New Base Oil, Blender License, & Brand License* fluid approvals. Please note that original formulations will need to have all test data uploaded to GMTDC and be entered into the DEXRONESubmission system before blender licenses can be issued.

The DEXRON Test Data Center and DEXRONESubmission contact information is:

Manager: Michael Kasimirsky  
Phone Number: 412-365-1033  
Email: [mtk@GMTDC.org](mailto:mtk@GMTDC.org)  
Websites: Test Data Uploads: <https://GMTDC.org>  
DEXRONESubmission: <https://DEXRONESubmission.org>

If you have any questions please contact Michael.
